

Introducing...

bit **box**

www.bitbox.ae

What BITBOX do?

BITBOX is marketplace that allows people from all around the world to transact their crypto assets on TRC10 technology that is defi, defi is decentralized oracle network that aims to provide smart contract with real world data & information, we are the formation in crypto industries that combines INR & crypto for easy transactions.

How we are different from other companies?

There are many crypto agencies in the world, and almost all offer similar services, prices, packages and timescales, most of the agencies in the world operate like faceless corporate, ,Most of other agencies require you to do all the legwork, struggling to understand all the concept rules & industries methods, We keep it simple if you want to do it, do it yourself that is great, but we are still available at every point and every step of the way to guide you through out it want to go completely hands off then we will happy to do it for you .BITBOX is a diversify defi management company, our ethics & Values drive our commitments to doing business right.

About Us
